Activity Risk Assessment

Please consider and list the Hazards and Risks associated with all activities being undertaken and equipment being used, along with how you plan to control the risk. Our Community Spaces Team are available to meet with you briefly, to run through the activities, hazards and risks. Yet, under Workplace Health and Safety regulations, you are ultimately responsible and liable for the safety of all people who may be affected by the activities that you undertake.

Likelihood	Consequence				
	Insignificant - First Aid, little impact	Minor - Medical attention, possible isolated/short delays to event activities	Moderate - Hospitalisation, delays to event, localised Public Relations needed	Major - Permanent injury, Cancellation of event, Public Relations outside of local area needed	Catastrophic - Death or permanent disability, external investigations
Almost Certain - Expected to happen most times during normal operations	MED	HIGH	HIGH	EXTREME	EXTREME
Likely - Expected to occur at some stage based on evidence of previous incidents	MED	MED	HIGH	HIGH	EXTREME
Possible - Not generally expected to occur under specific circumstances	LOW	MED	HIGH	HIGH	HIGH
Unlikely - Conceivable, but not likely to occur under normal operations, no evidence of previous incidents	LOW	LOW	MED	MED	HIGH
Rare - Only ever occurs under exceptional circumstances	LOW	LOW	MED	MED	HIGH

Use this Matrix to rate the risk after you have implement treatments and controls to reduce the risk. If the risk is High to Extreme, continue to add controls or eliminate the activity to acheive a Low to Medium level of risk. Activities that are not assessed for Risk may not be carried out during your booking.
